ACCOUNTING ORDER

* * * * *

1. On November 12, 1993, the Mountain Water Company (MWC or Company) filed with the Montana Public Service Commission (Commission) an application for an Accounting Order allowing the Company to accumulate and defer certain Other Post Employment Benefits (OPEBs) costs in connection with the implementation of the Financial Accounting Standards Board's (FASB) Statement of Financial Accounting Standard No. 106. That statement is titled Employer's Accounting for Post retirement Benefits Other Than Pensions (SFAS No. 106). Specifically, the Company requested Commission approval to accumulate and defer the costs incurred by the Company, which are reflected in financial statements effective January 1, 1993, that exceed the costs currently being

recognized for ratemaking purposes.

2. SFAS No. 106 was issued by the FASB in December, 1990, and required that companies recognize the expense of OPEBs during the time employees work to match the time that the benefits are earned. The standard became effective for fiscal years commencing after December 15, 1992. MWC implemented SFAS No. 106 on January 1, 1993.

3. MWC provides OPEBs such as health care and life insurance. Currently, the costs of these OPEBs are recognized on a cash (pay-as-you-go) basis. On January 1, 1993, companies, for financial statement purposes, began accounting for these costs by accruing them as they are earned by current employees and by amortizing amounts previously earned but not recorded or paid.

4. MWC's current rates recognize the pay-as-you-go (PAYG) costs of OPEBs. The accrual method in SFAS No. 106 will not be reflected in MWC's rates on January 1, 1993. SFAS No. 106, Paragraph No. 150 states: **"The decision of how or when to fund the obligation is not an accounting issue."**

5. The Commission grants MWC's request for an Accounting Order. MWC may accumulate and defer the OPEB costs incurred by MWC pursuant to SFAS No. 106 that exceed the PAYG costs for a given year. For example, in 1993 the amount deferred would equal the difference between the 1993 SFAS No. 106 amount and the 1993 PAYG amount. This calculation would be performed prior to any of the costs, PAYG or SFAS No. 106, being capitalized. The deferral may begin on January 1, 1993. MWC may use Account 604, Benefits Expense to record current PAYG expense. MWC may use Account 186, Miscellaneous Deferred Debits to record amounts prescribed by FASB Statement No. 106 in excess of the PAYG expense recorded in Account 604.

6. This Accounting Order is to be effective for a period not to exceed two years. Should MWC desire to continue the deferral beyond the two year period, resubmission of the request and an explanation of why further deferral consideration should be granted will be necessary. At the time the Commission makes a ratemaking ruling for SFAS No. 106, that ruling, not this Accounting Order, will be the controlling document for the treatment of SFAS No. 106.

7. MWC will have the opportunity, as well as the burden, to demonstrate in its next general rate case: 1) the appropriate

level of OPEB costs to be recovered through ratemaking, 2) the proper recovery period for those OPEB costs.

8. Approval of this Order is for accounting purposes only.

This Order is not to be construed as, nor is it in any way, a directive as to the proper accounting treatment for OPEB costs, or an approval of either the actual numbers involved, the accounting method used, or the assumptions underlying those numbers. Most importantly, this Order does not imply or direct in any fashion that OPEB costs deferred pursuant to this Order will be at any time recoverable in rates.

CONCLUSIONS OF LAW

1. The Mountain Water Company is a public utility furnishing water service to consumers in the State of Montana, subject to the supervision, regulation, and control of this Commission. Title 69, Chapter 3, MCA, Section 69-3-102, MCA.
